BUDITEL

SCHOOL OF THE FUTURE

The student is about to graduate from the XII. Class in May 2026.

Students in Bulgaria receive a diploma for secondary education after successfully passing the State Matriculation Exam in Bulgarian Language and Literature and the Compulsory State Exams for Acquiring Professional Qualification.

Throughout the entire period of study, the student is evaluated according to the six-point system, where the highest is Excellent 6.00, and the lowest positive is Average

Round blue seal with inscription and signature: SoftUni BUDITEL, First Private High School for Digital Sciences, Programming and Design
