Education

Private High School "Buditel", Sofia, Bulgaria
Programming Profile, Grades 9–11 (2014 – July 2026)

Vladimir Poghosyan is completing his secondary education at Private High School "Buditel" in Sofia, where he studies in a programming profile with a strong emphasis on mathematics, logical reasoning, and analytical subjects. His academic performance has been consistently strong, with an average grade of 5.30/6.00 in Grade 9, 5.14/6.00 in Grade 10, and a significant improvement to 5.85/6.00 in Grade 11. In Grade 10, he achieved a Mathematics Matura score of 95/100, demonstrating a high level of quantitative ability and mathematical competence relevant to the study of economics.

Academic and Personal Projects

Vladimir has worked independently on the development of an international medical reports platform aimed at improving the efficiency and organization of patient medical data. The project focuses on structured data management, scalability, and optimization of information flow within healthcare systems, while also considering its potential economic and operational applications. He has also independently developed a service-booking website for a construction company, designed to streamline customer requests and improve operational efficiency. In addition, he participated in a team project to create an interactive digital menu for a Bulgarian-Italian restaurant, collaborating with classmates to enhance customer experience and accessibility.

Work Experience

Vladimir is currently employed as a Loan Reporter at Ipocredit, where he assists in the preparation, verification, and reporting of loan documentation. Through this role, he has gained practical insight into credit operations, financial workflows, and the structure of lending processes. Previously, during the summer of 2024, he worked as a waiter at Skapto Burgers in Sofia, where he developed strong communication skills, adaptability, and teamwork in a fast-paced environment.

Skills

Vladimir possesses strong mathematical and analytical thinking skills, with a particular aptitude for quantitative problem-solving and rational decision-making. He is experienced in data organization, reporting, and digital tools, and has a solid foundation in web development and technical literacy that supports structured and logical analysis.

Languages

He is a native-level speaker of Armenian and Bulgarian, has an advanced command of English at C1 level, and possesses basic knowledge of Russian at A2 level.

Extracurricular Activities

Outside of academics, Vladimir is a Vice Republican Champion in Mixed Martial Arts and a multiple-time medalist in grappling tournaments. His background in wrestling reflects discipline, perseverance, and long-term commitment to performance under pressure.
